

# Student Support Unit

## Aims

- \* Implement student support work in a Whole-school Approach model to cater for students' individual differences and students with special education needs.
- \* Provide appropriate guidance and support for students with different education needs.
- \* Make reasonable adjustments in teaching and assessment to students with special education needs, and encourage them not to give up easily but to do their best.
- \* Promote mutual respect among teachers and students, encourage home-school cooperation, and to create an inclusive environment.

## Main job

- \* Cooperate with different departments, institutions and professionals to understand the situation and needs of students with special education needs.
- \* To plan, to implement and to review the effectiveness of various adjustment and training activities.
- \* Hold case conferences for students with special education needs, to discuss supporting measures and adjustment methods with professionals, teachers and parents.
- \* Promote an inclusive culture in school campus.
- \* Encourage home-school cooperation and communicate with parents regularly.
- \* Improve teachers' knowledge and skills in helping students with "special learning needs".

## School-based support services

### Speech Therapy Service

School-based speech therapists provide students with professional services such as speech assessment, speech therapy, parent consultation and workshops.

### Educational Psychology Service

Provide students with educational psychological assessment, provide professional advice, promote effective teaching strategies to cater for students' special education needs, and provide comprehensive and regular case follow-up and intervention services.

### Learning Support Service

Help students with special educational needs to do homework and study in groups after school.

### Group training

Organize diversified learning and activity groups after school to enhance the ability of students with different education needs in different areas.

### Parent support

Arrange workshops or seminars for parents to help them to improve parents' skills in caring for children with special educational needs.
